## **Now is the time to act!**

Mumia's freedom is at stake in the case before a Philadelphia court, in which Mumia is demanding release of all possible evidence (files, documents, reports etc.) showing the complicity of Ronald Castille in his frame-up for a murder he did not commit, and the subsequent conviction.

Castille, who was in the DA's office as Assistant District Attorney at the time of Mumia's frame-up and trial, later sat in judgement over Mumia's appeals against this very same conviction as a judge on the PA Supreme Court! This action, of a prosecutor involved in a conviction who later sits in judgement over the same person's appeals against that conviction, has been ruled unconstitutional by the US Supreme Court, in its Williams decision. The Williams decision involved the very same actor, Ronald Castille of Pennsylvania, as in Mumia's case!

A success in this case could invalidate all of Mumia's negative state appeals decisions, which would pave the way for overturning his conviction, and thus freeing Mumia!

**Mumia's next court hearing on this "discovery" demand  
is on Tuesday, March 27th in Philadelphia.**
